I am a software engineer with hands-on experience in website and system building. I am an enthusiastic developer who is always learning and developing both technical and soft skills, and I am keen to learn about new software technologies that can help the team and business achieve their goals and objectives.

Relevant Experience

Web Developer

SENCE1 INC

November 2023 - Present

As a Software engineer and Web developer at SENCE1 INC., I'm helping with formulating, planning, and executing new company service ideas. Aside from supporting previous company projects and tasks:

- I joined two teams for the company service ideas:
 - a. a manpower service idea;
 - b. a scholarship pooling idea.
- I helped with the discussions, formulation of design systems, and creation of low and high fidelity wireframes.
- I'm helping with the frontend development of the service ideas using ReactJS and Material UI. Rails and Laravel for the backend.
- I joined the design team (creating designs for company ID, Calling Cards, and Zoom Background) and analytics team (discussing on how to improve website data gathering and interpretation).
- I helped with the creation of the new company website, which included discussion, design creation, site setup, and building.

Web Developer

CREATIVEHOPE PH INC

September 2022 - Present

As a web developer, I'm helping with formulating, planning, and executing new company service ideas. Aside from this, I'm handling multiple coding projects and tasks from our HQ (CREATIVEHOPE INC.) in Japan.

Junior Web Developer

CREATIVEHOP PH INC

October 2021 - September 2022
